Severe Weather Doorglass

**Designed for Security.
Engineered for Strength.**

ODL severe weather doorglass is designed for hurricane-rated doors, especially for homes in wind-borne debris regions or high-velocity hurricane zones (HVHZ). The severe weather products meet wind-borne requirements in areas where wind speeds can exceed 180 mph, Design Pressure (DP) ± 66 psf, and wind and missile impact code requirements. The flat profile frame laminated severe weather door lights are certified to meet Florida Building Commission codes. Please go to www.odl.com for the most updated product certifications.

Florida Wind-Borne Debris Region for Risk Category II Buildings

Texas First Tier Coastal Counties

Impact-Resistance Laminated Glass

ODL Decorative Doorglass, Blinds, and Grilles are sealed between impact-resistant laminated glass on the exterior, and tempered safety glass on the interior.

Flat Frame Profile Offers Strength and Quality

- Flat profile for a wider range of architectural applications
- Low 3/8" profile
- Longer screws reduce potential strip out
- Flat screw hole covers install flush to frame
- White powder coat finish on aluminum frame can be painted
- No shop-related Dow 995 application required
- Meets Florida Severe Weather requirements ± 66 DP
- Product certification information available under:
Florida Building Code approval FL14935.1, FL14935.2, FL14935.3, FL14935.4
Texas Department of Insurance approval DR-557, 625, 633, 634, 691, 692

Added Value of Noise Suppression

ODL Severe Weather Doorglass provides you with a quieter solution over storm shutters: they carry a sound transmission class rating of 37 dB for a level of sound suppression that is welcome year round.

*Third party test reports are available at
www.odl.com/techinfo_productperformance_doorglass_stc.htm*

Missile Impact Tested

The Level D missile impact test involves firing an 8-foot long 2"x 4" at 50 feet-per-second at designated spots on the doorglass and door slab. The entire unit must remain intact through 9,000 pressure cycles, and also pass water-infiltration, structural loading, and forced air-infiltration tests.

See the Missile Impact Test video at www.odl.com/videos_doorglass_missiletesting.htm

Banter

Layered Glass

Banter's small-scale pattern of overlapping diagonal lines creates a woven design that zig-zags across layers of doorglass. From a distance, the fine "threads" give the appearance of fully frosted, textured glass that provide a low-medium privacy range.

Brainstorm

Layered Glass

Appealing to both mid-modern and modern design sensibilities, Brainstorm’s exterior vertical pattern and interior chevron motif combine for an appearance with both subtlety and substance. Brainstorm has a medium to medium-high privacy range.

Cadence

Doorglass Design

As its name suggests, Cadence flows into floral-inspired bevel clusters defined with a patina finish that creates a bright and Classic entrance with a medium level of privacy.

Chatter

Layered Glass

A repetitive pattern of dots and lines creates a doorglass design that reads as a texture. Chatter's shadow effect adds playful movement to a doorglass design with a medium-high privacy range.

Converse

Layered Glass

What at first appears to be cut glass is a stencil design that hints of keyhole arches common in Moroccan architecture. The relationship between Converse's clear and frosted glass layers creates striking shadows and a high privacy range.

Enclosed Blinds

Raise, Lower & Tilt—No Dusting!

Enclosed blinds mean no dust or dirt, no kinks or dents, and no banging of the blinds when you open and close your door. A cordless design is a safer solution when children or pets are in the house. Light-Touch® blinds are designed and engineered to be used day in and day out. We've tested them for more door slamming (50,000 times) and adjusting (10,000 times) than your average household use. The glass seal is warranted for 20 years.

Available in Clear or Low-E glass. 

Blinds adjust for complete light block.

Single operator lets you raise, lower or tilt.

Available in a white blind only.

Gray Glass

Turtle Code Compliant

Thousands of marine turtles nest in U.S. coastal areas. State and local ordinances protect hatchling turtles by limiting the brightness of inside-to-outside visible light transmittance. The tinted gray door glass meets these code requirements.
